

Speed. Precision. Quality.

# WE VALUE TIME.

We lead our ways, through distances, through space, through time. It is our communication. The way how we manage to do it, symbolises everything concerning us, our identity, our inner culture.

Just as there is a subtle partnership between the watch and its owner, there is an understated bond between a client and the company which he chooses for his partner. Whether we accomplish every task with perfection makes others rely in our actions, believe in us. It is a statement of trust.

We honour our clients and our communication. We appreciate speed and precision. Our goal is to respect the duration of that present. The present of time.

Like clockwork.

# GROSS WT. PAYLOAD TARE WT.

## ABOUT US

PETROMAKS is an international provider of freight forwarding and logistics services. In a close collaboration with our customers and long-term partners we work out and bring to the market professional, efficient and competitive transport and logistics solutions.

Our customers benefit from our global presence and experience in effective rail and road transport of different cargoes, container shipping, simple freight products, warehousing, port handling services as well as complex global solutions tailored to individual needs.

Among other things, PETROMAKS launched the first in the history and very unique shipment of primary aluminum to Rotterdam by the Northern Sea route (down the Yenisei River with transshipment in Igarka port).

In 1998 PETROMAKS decides to become engaged in stevedoring in Paljassaare Harbour, Port of Tallinn.

In 2008, PETROMAKS further strengthened its position in specific segment by acquiring quays and industrial area in Paljassaare Harbour.

In October 2009, PETROMAKS became the authorized agent of JSC "TransContainer" in Estonia, whose resources and technologies create additional possibilities to meet the wide range of transport and logistics needs of customers.

PETROMAKS is a member of the Baltic and International Maritime Council (BIMCO).

The company's services are certified in accordance with the international quality standards ISO 9001:2008 and ISO 14001: 2004.

# CONTAINER TRANSPORT

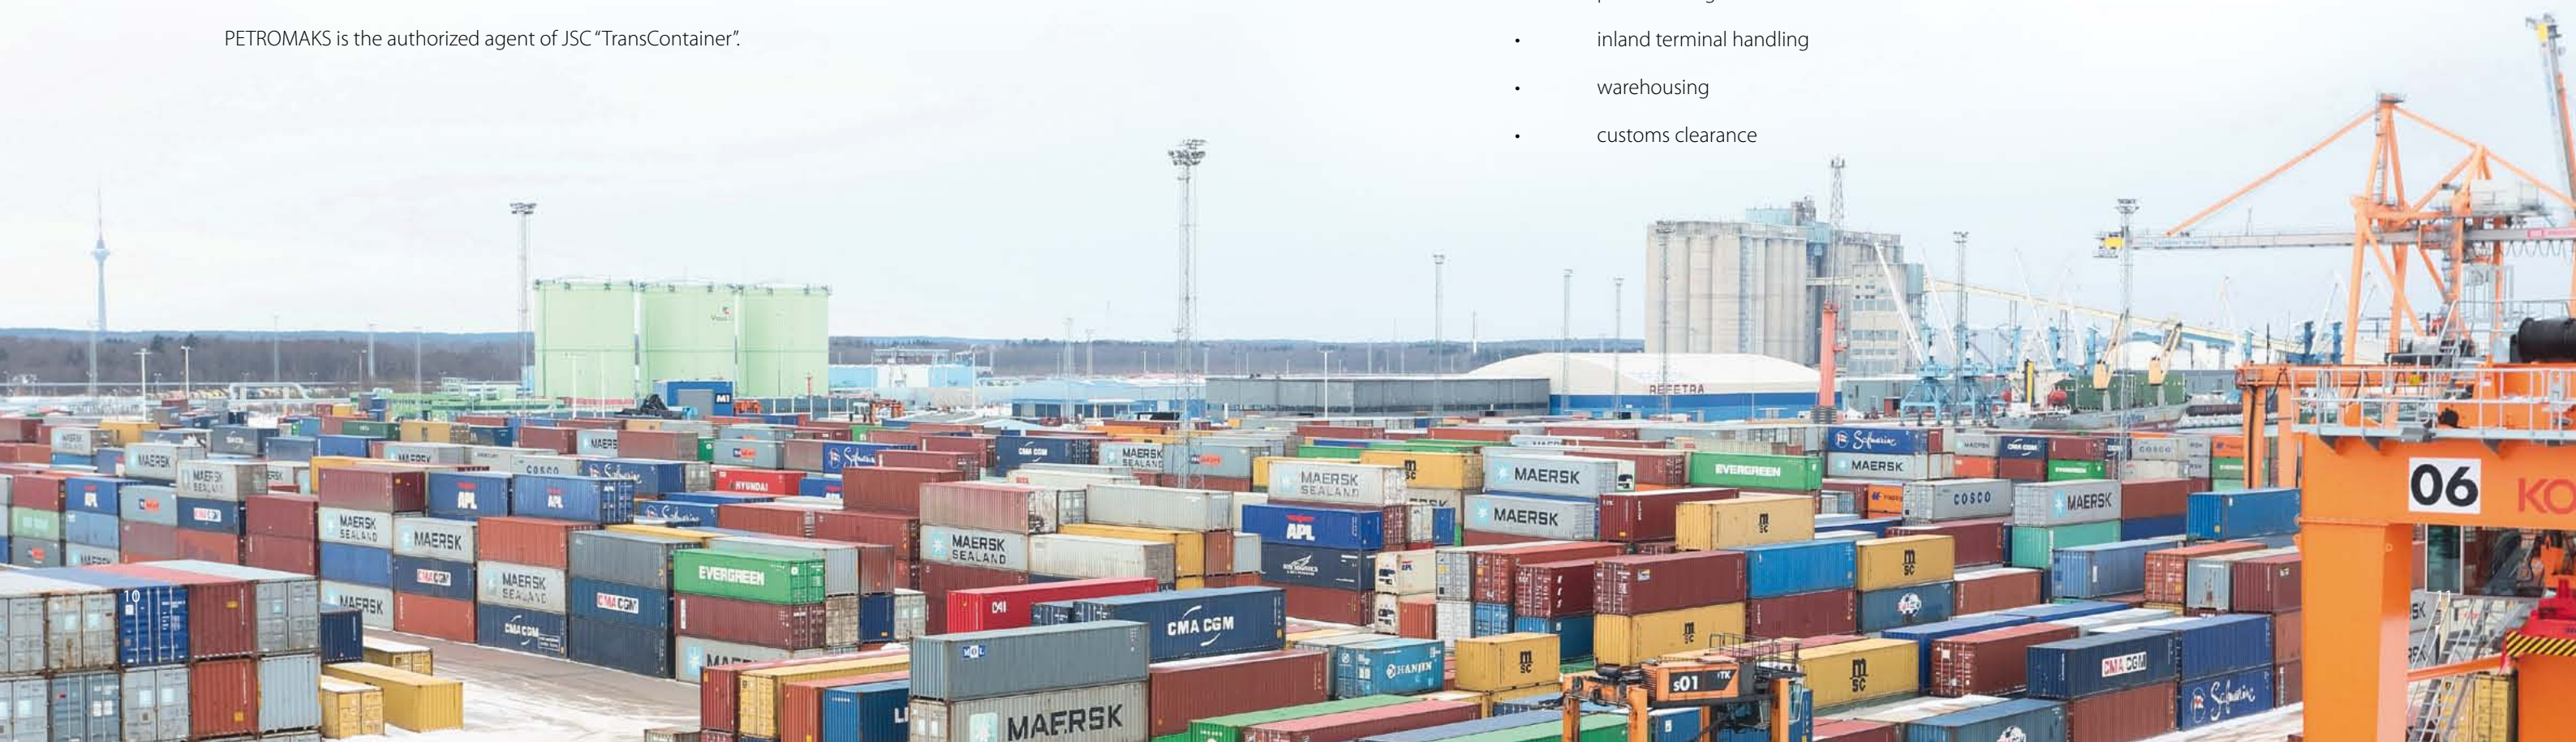

PETROMAKS is one of the leading transport and forwarding company for intermodal container transport in Estonia, who moves containers between Estonian ports and clients across Russia, CIS countries, Baltic States, Europe, South-East Asia, the USA and Australia.

With our ability to ensure competitive freight rates for containers transportation via different transport modes, stable and long-term cooperation with the world's leading liner operators we can provide customers with comprehensive services in all major world ports.

PETROMAKS is the authorized agent of JSC "TransContainer".

PETROMAKS offers the full range of transport and forwarding services relating to shipment of containers:

- intermodal door-to-door FCL service
- pre-/on-carriage rail and road transport to/from the seaports
- ocean freight
- port handling
- inland terminal handling
- warehousing
- customs clearance

# RAILWAY TRANSPORT

PETROMAKS is the leading transport and freight forwarding company in Estonia in organization of international rail transportation.

We are able to provide customers with individual door-to-door solutions in transportation of cargoes by rail. In addition to the access to railway networks throughout Estonia, Russia, Baltics States and CIS countries, we can offer rolling stock for loading.

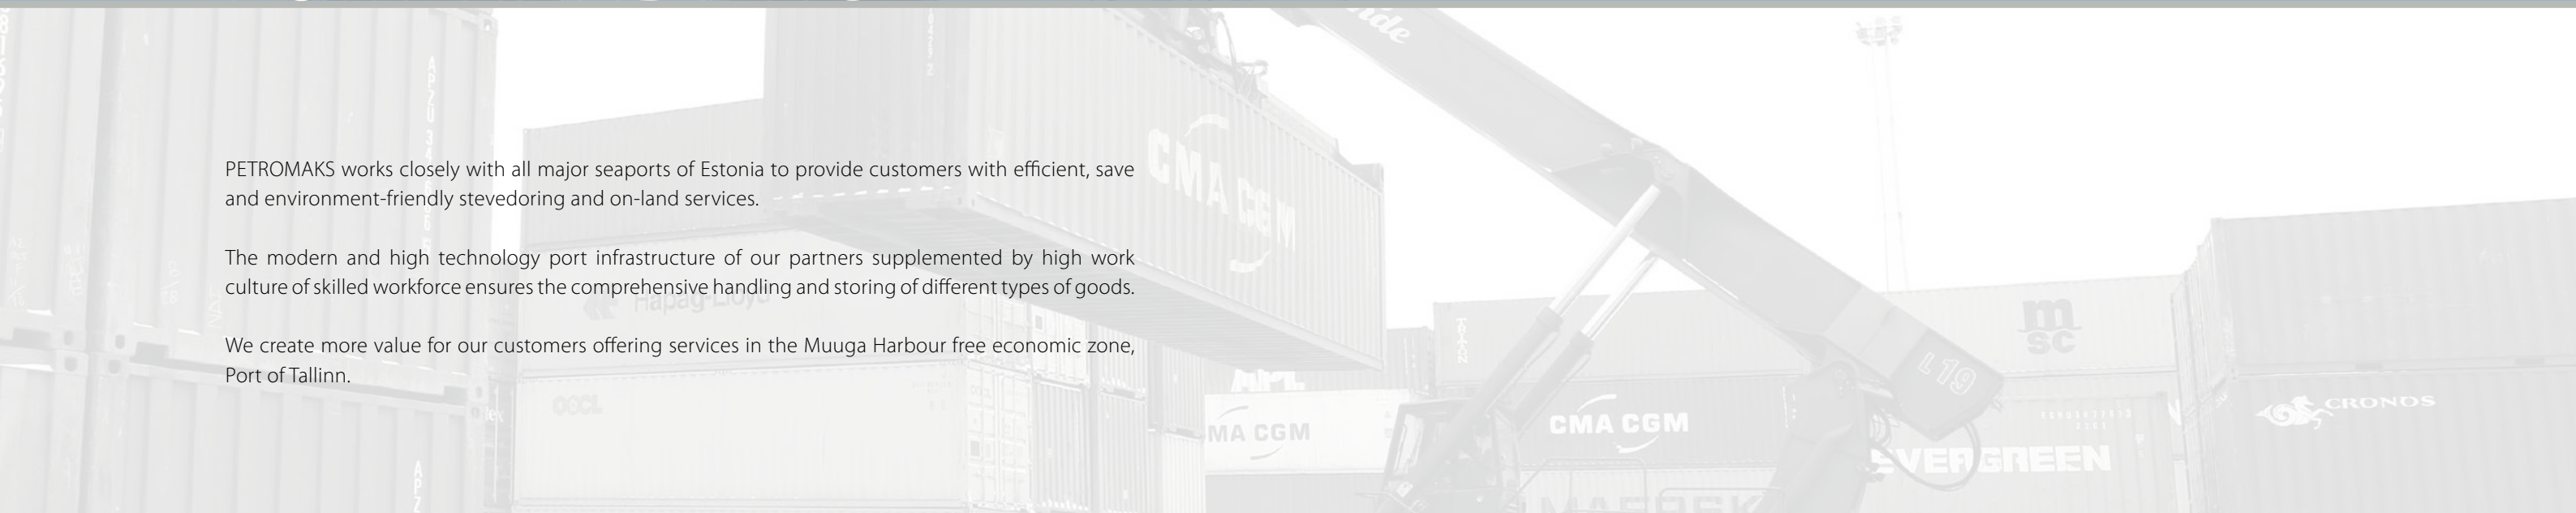

# PORT HANDLING

PETROMAKS works closely with all major seaports of Estonia to provide customers with efficient, save and environment-friendly stevedoring and on-land services.

The modern and high technology port infrastructure of our partners supplemented by high work culture of skilled workforce ensures the comprehensive handling and storing of different types of goods.

We create more value for our customers offering services in the Muuga Harbour free economic zone, Port of Tallinn.

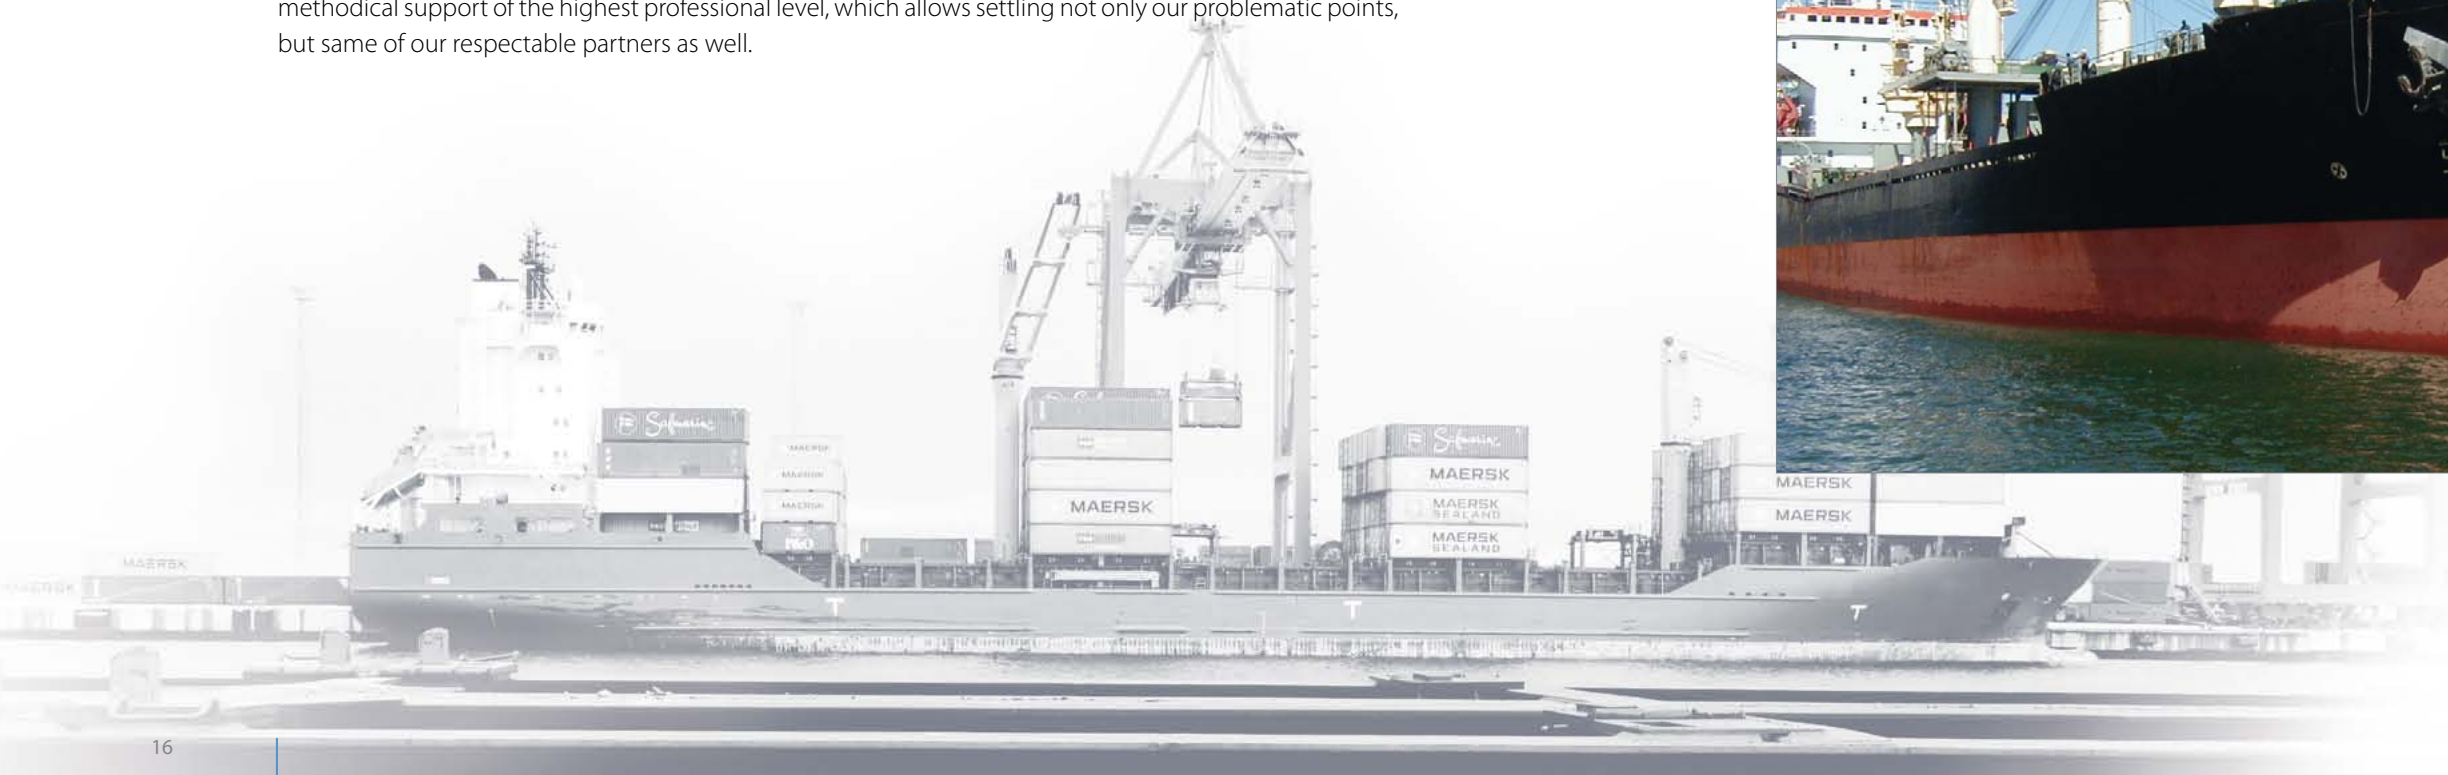

# SHIP AGENCY

PETROMAKS provides ship agency services 24 hours 7 days a week. We have all necessary equipment for smooth operations: mobile phones, telex, internet, VHF radio.

For more than twenty years, our experienced experts have served different types of vessels in Port of Tallinn as well as in all other Estonian seaports.

Since we have joined the BIMCO in October 2000, we always have an excellent opportunity to apply to the methodical support of the highest professional level, which allows settling not only our problematic points, but same of our respectable partners as well.

# STEVEDORING SERVICES

PETROMAKS is owner and operator of 4 quays and industrial area in Paljassaare Harbour – one of five constituent harbours of Port of Tallinn. Paljassaare Harbour is located on Paljassaare peninsula in Tallinn, only 4 km from the city center.
